As I look back to 2021, I would like to express my deepest appreciation and gratitude to all employees and stakeholders who took on courageous responsibility and worked effortlessly with commitment to ensure operation and supplies even during the worst COVID-19 situation. These remarkable employees are the backbone of your Company and they have put their best efforts to transform your Company and to make it more competitive and achieve new heights .

Furthermore, your company, today, is on an expansion spree in all its verticals. In LPG Bottling, your company is eyeing to increase the number of already existing 58 bottling plants to around 70+ in the coming days. In the Packed Cylinder business, your company is progressing and is aiming to increase the existing dealer network from around 2,000+ dealers to 3000+ dealers. In the Auto LPG sector, your company could not achieve the target last year due to Covid-19 Pandemic, but this year we are committed to considerably increase the number of Auto LPG Dispensing Stations. ## MANAGEMENT DISCUSSION AND ANALYSIS REPORT

### **Industry Structure And Developments & Global Economy**

Indian economy geared up vigorously in 2021-22 after the severe jolt in previous year due to Covid-19 pandemic. Indian economy is expected to register a growth @ 8.7% in the year 2021-22. The high growth is attributed to a strong recovery in demand, supported by continued policy reforms and relief measures by the government. The economic growth could have been higher had it not been hit by the severe subsequent wave of Covid-19 pandemic during the beginning of the year. In nutshell the year 2021-22 saw the world experience some encouraging as well as concerning times.

The global economy grew by around 5.8% in 2021 after witnessing the severest contraction due to Covid-19 pandemic in 2020. This growth was because of improved economic activity and strong rebound in demand and milder lockdowns. The growth however, was uneven because of spurt in Global demand and inconsistent capacity constraints and supply-chain bottlenecks, which contributed to unexpected high level of inflation with energy and commodity prices rising sharply; some even soaring to record levels.

While the global economic prospects were improving with milder impact of Covid-19 pandemic Omicron variant, the Russia-Ukraine war, which started in February'2022, vitiated optimism and aggravated the inflationary risks. The cascading effects of this crisis and the sanctions imposed on Russia have far-reaching implications on the world economy and further disrupted the supply chains, which stoked global inflation. Fuel and food prices increased phenomenally across the world. The weaker economies particularly the low-income economies felt the most vulnerable effects. Recent lockdowns in key manufacturing and trading hubs in China have greatly impacted the global growth. Many major economies started retracting their expansionary policies with indications of steeper monetary tightening, leading to deceleration of growth momentum.

The Global economy is facing serious headwind due to financial and commodity market upheavals, repercussions from the war situation and sanctions and the unpredictable path of the pandemic, high inflation and weak growth, which could erode living standards around the world. Confronted with complex challenges, policy actions need to be crafted carefully, since there is very little room left for catalyzing growth.

## LPG Industry

Liquefied Petroleum Gas (LPG) is a group of flammable hydrocarbon gases that are liquefied through pressurization and commonly used as fuel. It is a natural element derived by combination with other hydrocarbon fuels, typically crude oil and natural gas. It is produced during natural gas processing or refining and liquefied through pressurization and stored in pressure vessels.

Over 90% of LPG demand in India comes from domestic consumers, the consistent hike in excise duty of automotive fuels such as diesel and petrol has made commercial LPG a favorable option for automotive segment as well.

The recent global developments have immensely disrupted the energy landscape. It shaped more distinct & persistent energy normal. The pandemic, the Soviet-Ukraine War and the realization to move towards carbon-free world have trembled the energy world. While the move towards clean energy solutions accelerated amidst growing concerns on climate change and energy security, the economies are increasingly realizing that in the absence of widespread global infrastructure, standards, usage choices and fiscal incentives, green energy still has a long way to go in its struggle to overtake the currently predominant LPG.

During the year, the government launched the second phase of PMUY (Ujjwala 2.0), extending the penetration of LPG further into rural areas. Under this phase, one crore new connections were given to the beneficiaries, by the Oil Marketing Companies. Under Ujjwala 2.0 additional sixty lakh connections were to be issued during 2022-23.

**ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF CONFIDENCE PETROLEUM INDIA LIMITED**

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Confidence Petroleum India Ltd("the Company") as of 31 March 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

**Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance

Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatements of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements

### **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in

conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, the Company has, broadly, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

## **L. OTHER INVESTMENT AND FINANCIAL ASSETS**

### **i) Classification**

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in Statement of profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for equity investment at fair value through other comprehensive income.

The Company reclassifies debt investments when and only when its business model for managing those assets change.

### **ii) Measurement**

At initial recognition, the company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss

Subsequent measurement of financial assets depends on the Company's business model for managing the asset and the cash flow characteristics of the asset

Equity instruments: The Company subsequently measures all equity investments (other than investment in subsidiary) at fair value. Where the company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss as other income when the Company's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in the other income. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

## **M. OFFSETTING FINANCIAL INSTRUMENTS**

### **38.Fair Value Measurement**

#### Fair Value Measurement

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values: ·

Fair value of cash and short-term deposits, trade and other short term receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to short term maturities of these instruments.

Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for expected losses of these receivables. Accordingly, fair value

of such instruments is not materially different from their carrying amounts.

### **Use of estimates**

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and disclosure of contingent liabilities at the end of the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities in the future periods.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress"

## **K. OTHER INVESTMENT AND FINANCIAL ASSETS**

### **i) Classification**

The Company classifies its financial assets in the following measurement categories:  
-those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and  
-those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in Statement of profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for equity investment at fair value through other comprehensive income.

The Company reclassifies debt investments when and only when its business model for managing those assets change.

### **ii) Measurement**

At initial recognition, the company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss

Subsequent measurement of financial assets depends on the Company's business model for managing the asset and the cash flow characteristics of the asset

Equity instruments: The Company subsequently measures all equity investments (other than investment in subsidiary) at fair value. Where the company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss as other income when the Company's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in the other income. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

## **L. OFFSETTING FINANCIAL INSTRUMENTS**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

## **M. PROVISIONS**

These are reviewed at each balance sheet date and adjusted to reflect the current best estimates

## **N. TAXES ON INCOME**

The Tax expense for the period comprises of current and deferred Income tax. Tax is recognized instatement of Profit & Loss, except to the extent it relates to its items recognized in the Other Comprehensive Income or in equity. The carrying amount of Deferred tax liabilities and assets are reviewed at the end of each reporting period.

## **O. CONTINGENT LIABILITIES**

### Fair Value Measurement

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values :

Fair value of cash and short-term deposits, trade and other short term receivables, trade payables, other current liabilities, short term loans from banks and other financial institutions approximate their carrying amounts largely due to short term maturities of these instruments.

Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for expected losses of these receivables. Accordingly, fair value of such instruments is not materially different from their carrying amounts.
