capacity

Supply to Oil PSU majors is expected to remain stable. Sales is expected to remain stable with the replacement and ongoing growth demand.

Higher Gross Margin with limited capital requirement will lead to improvement in return ratios

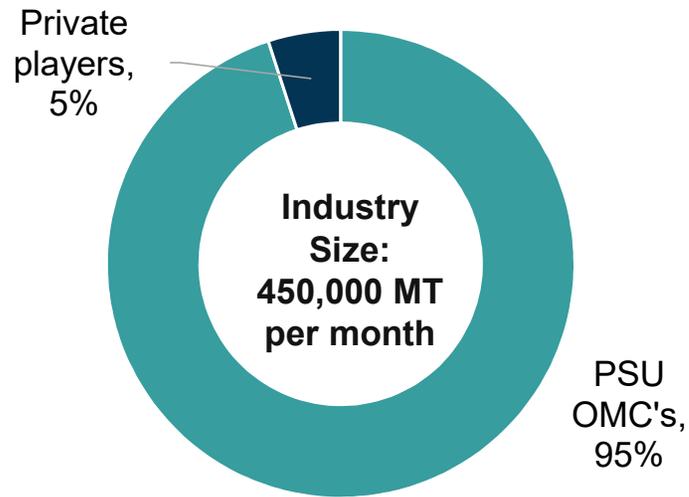

LPG Bottling & Packed Cylinder Division

Energizing India's commercial segment

Demand For Commercial LPG

Commercial LPG market : India

Decoding rise in Commercial LPG Consumption

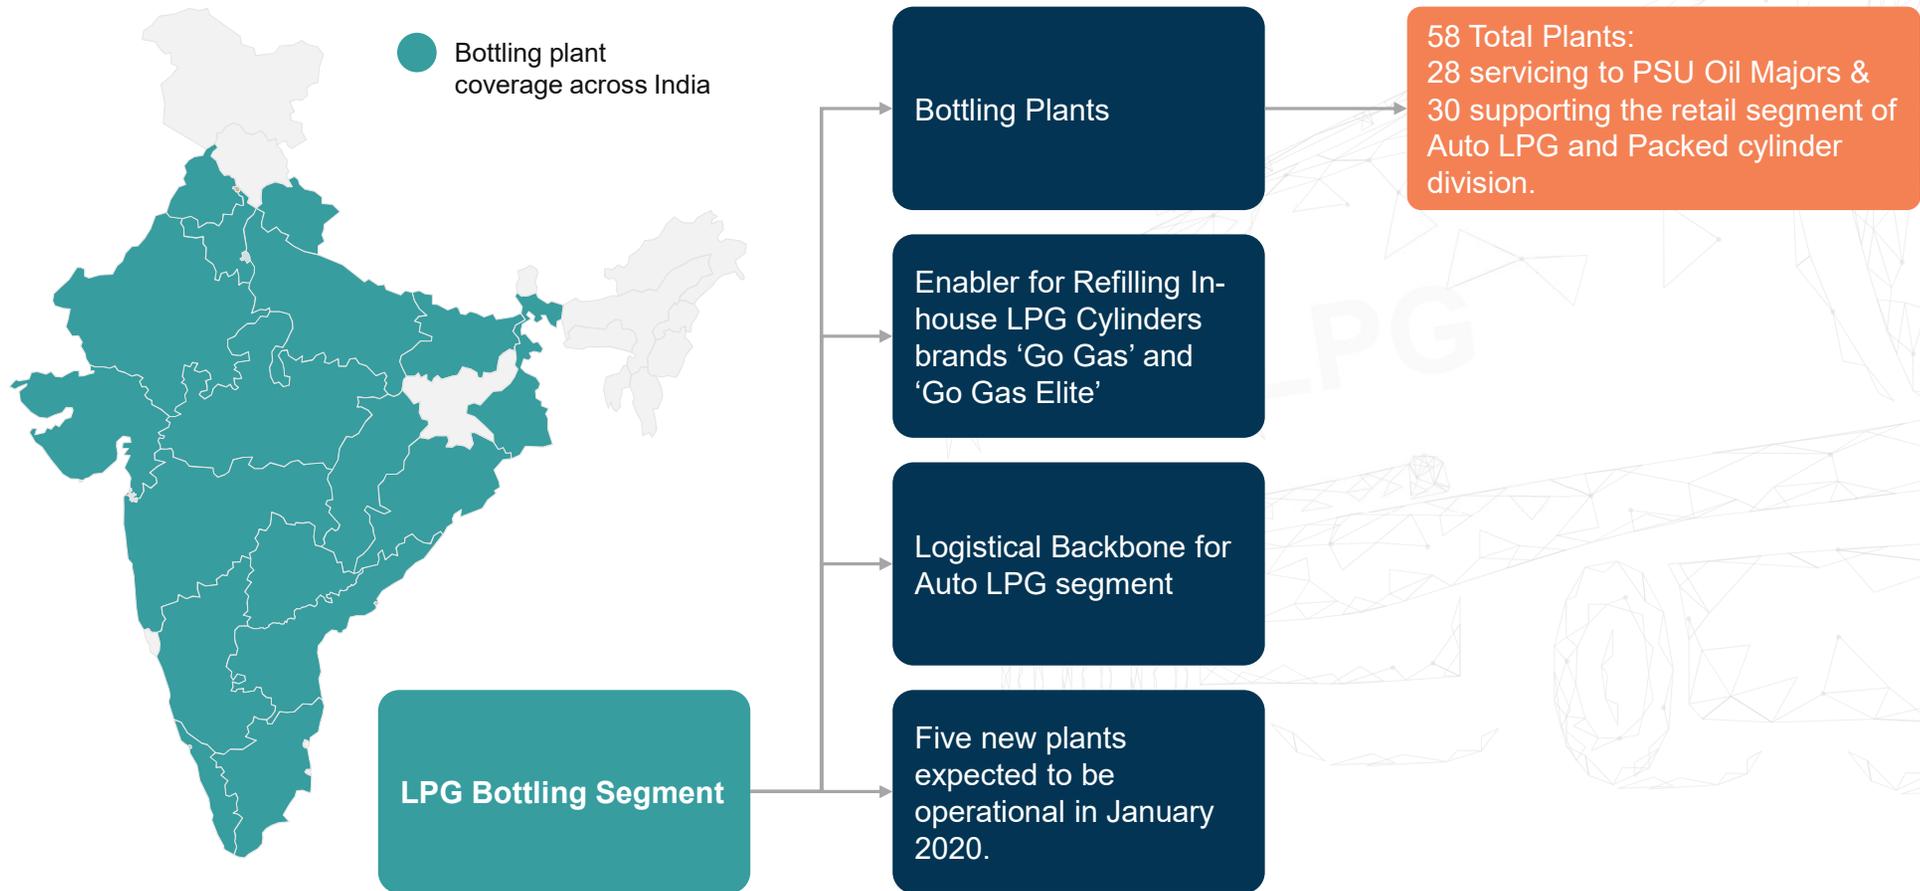

Policy Support & preferred choice fuel by growing Industrial segment

Direct Benefit Transfer of LPG subsidy

Growth in HORECA industry

New age business models, e.g., Cloud Kitchen

Confidence LPG Bottling segment: Snapshot

Bottling plants- enabler for retail sales

Bottling Plant Salient Features

-  Strategic locations
-  Rising demand from PSUs owing to Ujjawala scheme to strengthen EBITDA margins
-  Limited additional set-up cost
-  Low capex business leads to strong sustainable ratios

Bottling Plants – PSU costings

01

PM Modi to inaugurate 3 major petroleum products in Bihar; another gift to state ahead of polls 2020

The government said that Indian Oil's LPG bottling plant at Banka will increase the self-reliance of Bihar by meeting the rising demand for LPG in the state. **Citing the investment of around Rs 131.75 crore in the plant** with an LPG storage capacity of 1800 MTs and bottling capacity of 40,000 cylinders per day, the PMO added this plant would generate direct and indirect employment opportunities in the state. Another LPG plant will be based at Champaran, which will have a capacity of 120 TMTPA LPG bottling plant and will seek an investment of **Rs 136.4 crores**

02

BPCL will commission Bokaro LPG bottling plant in December

He said the Bokaro LPG bottling plant is being built with an estimated **project of Rs 93.4 crore**

03

Chittoor to get LPG bottling plant by 2022

In addition to the above, to meet the increasing demand of LPG in AP, 120 TMTPA GRASSROOT **LPG bottling plant at a cost of Rs 167 crore** is coming up in Chittoor

Packed Cylinder SKUs

Future Growth enablers

Privatization of a major PSU OMC

- The privatization of a major PSU will result in either elimination of subsidies in the domestic segment OR benefits to private players for these subsidies.
- The move will provide a level playing field in subsidized domestic segment

Push to industries to switch to clean fuel

- The Pollution boards are levying stricter norms for industries to switch to clean fuel
- This has resulted in a industries switching to LPG, due to its easier availability.

Packed Cylinder: Future Growth Segments

Residential complexes

Mobile tower

Industrial Cylinders

Auto LPG Dispensing Station

Green Energy Solutions for automobile

Economics of Auto LPG stations

Details	INR
Cost of setting up Auto LPG station in Tier-2 city (Rs) (4 lines)	1,00,00,000
Throughput of a new station per day (Litres)	1,800 - 2,000
EBITDA Margin per Litre (Rs)	~8
Total EBITDA per day (Rs)	16,000
Total EBITDA per annum (Rs)	58,40,000
Return on Investment	58.4%
Pay back period for an average station (months)	20.55

Auto LPG – Competitive Edge

No Middle-Men and Efficient Supply Chain

4 Blending Plants, 58 LPG Bottling Plants and 209 Auto LPG Stations to Support the Growth

Hub And Spoke Model for Distribution

Focused Approach Towards Auto LPG

Direct Company Owned Operations Resulting in Higher Profitability

Uninterrupted Dispensing Operation

Quicker Decisions Resulting to Faster Growth

Profitability

Ability to capture larger market share

Uninterrupted & timely service

Competitive price to customers

High growth

Customer centric

Go to Market

Site Selection

1. A team of 3 conducts a location analysis, traffic flow of target customers & its proximity to other LPG stations.
2. Discusses lease terms with the owner
3. Marketing manager visits & either a go OR no-go decision.

Project Team

1. Complete the project feasibility
2. Final negotiation on the rates with the owner
3. Apply and get the approvals
4. Ensure the commissioning of the project.

Operation Set - up

1. Recruit team members to run the operations.
2. Logistics planning, through LPG tankers for according to the refuelling schedule.
3. Cash collection and deposit policies
